This is the best game I have ever played aside from the popular multiplayer story based shooter known as Dinosaur Hunt. I find it to be the best way for me to release my juicy♥♥♥♥♥♥ there is just something about the movement which makes me cream myself. I once fell asleep playing this game and woke up to 3 litres of♥♥♥♥♥♥inside of my pants. I definitely recommend it to anyone who finds the Call of Duty franchise to be too mainstream. This is the game for you edgelord furries!. I recommend you to avoid this game, the graphics, sound, and gameplay are horrendous.

. Best. Game. On. Steam.. It was only a buck and it is pretty fun. Recommended for someone who wants some cheap fast paced fun. Best game ever. This has to be one of the best games I have played in my **whole life**. The intense, fast paced gameplay makes you want to play for hours!

Pros:

- Cool Jumping
- Nice graphics

Cons:

- Can't change zoom sensitivity
- Not many players
- Not many guns
- Gun customization is a bit weird
- Some maps are a bit undeveloped
- Had trouble making an account
- Pistols are VERY underpowered
- Only 1 Camo
- Minimap is broken
- Lots of invisible walls
- Weird texture glitches
- Only 1 player model
- Boring menu
- Only 1 song in the menu (Its pretty MLG though)
- Using the word Noob to much

---

The graphics is insane for a game less than a gb im impressed, But there is an issue  
The glitches and bugs, they're too much  
plus  
the jetpack glitch is annoying  
just click space twice after you fly a little quickly click d or a and you will travel in the speed of light  
You can also jump off maps with this glitches  
its not fun  
\*plot twist\*  
Bad pcs cant play this game  
And the frames are very limited Even on garbage graphics its on 26-18 fps Not cool  
this game needs alot to do  
Either way id get this game and leave it to die on the library and then play it That should fix the fps and the glitches  
For a new game  
i expected this. not gonna lie  
But not as much  
But the graphics the maps and how big they are are impressive Good job! Oh and i almost forgot. There isnt much players playing this game So people should wait some time  
I think this game is gonna blow up in steam hopefully and before you buy this game.  
dont expect much its still new. Yes this game is flawed I addmit that but for 0.99\$ CAN it is worth it if you have friends. I have issues with this game and they are: No servers, Bad controls witch you can not change, 2 Different guns and unbalanced classes. I also have things that I like about the game such as: it is only 0.99\$ CAN, It is fun to play with friends, one of the most affordable (TF2 being the exeption) shooters on steam, great game to play if you are bored, almost anything can run it and IT IS NOOB SQUAD!!!!

Overall it is ok game. Not the best game on steam by far but for 0.99\$ CAN you have to take what you get. If you could rate this game 'mixed' i would.. game is bad. no login, or register. This game makes me want to die. Cancer at its finest.
